SKILLS

Languages: C/C++, PHP, JavaScript, HTML/CSS

Frameworks: Laravel, RestAPI, TailwindCSS, Bootstrap

Tools: Git/GitHub, Linux, VS Code

Problem Solving: Hackerrank, Leetcode

PROJECTS

FreshFood | *Laravel (PHP), MySQL, HTML, CSS, JavaScript.*
- A web application for managing and ordering fresh food products, featuring user registration, a product catalog, shopping cart and checkout, order management, and an admin dashboard. Built with modern web technologies for a responsive and user-friendly experience.

Portfolio | *HTML, CSS, JavaScript.*
- A fully responsive personal portfolio website using HTML, CSS, and JavaScript. Features include smooth scrolling, scroll animations, and a mobile-first design, ensuring compatibility across all devices. Demonstrates strong front-end development and responsive web design skills.

EXPERIENCE

Phone Tech BD Ltd | *Backend Developer*   Jan. 2024 – Present
I am currently working as a backend developer with experience in PHP, Laravel, and MySQL. Skilled in building and maintaining server-side applications, with occasional use of Livewire. Committed to delivering high-quality code and continuous improvement.

Unicorn Software and Solutions | *Internship*   Jun. 2023 – Aug. 2023
Set up JavaScript and PHP development environment on Linux (Ubuntu). Utilized version control systems (Git and GitHub). Collaborated with team members and reported to seniors. Worked on back-end development and performed CRUD operations with an SQL database.
